

MEDICAL CONDITIONS POLICY

To support children's wellbeing and manage specific healthcare needs, allergy or relevant medical condition our OSHC Service will work in accordance with the Education and Care Services National Regulations to ensure health related policies and procedures are implemented. We aim to take every reasonable precaution to protect children's health and safety by explicitly adhering to individual medical management and risk management plans and responding to any emergency situation should they arise.

National Quality Standards (NQS)

Quality Area 2: Children's Health and Safety

2.1	Health	Each child's health and physical activity is supported and promoted.
2.1.1	Wellbeing and comfort	Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's needs for sleep, rest and relaxation.
2.2	Safety	Each child is protected.
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard.

Education And Care Services National Regulations

85	Incident, injury, trauma and illness policy
86	Notification to parent of incident, injury, trauma or illness
87	Incident, injury, trauma and illness record
89	First aid kits
90	Medical Conditions Policy
90 (1) (a)	The management of medical conditions, including asthma, diabetes or a diagnosis that a child is at risk of anaphylaxis
90(1)(iv)	Medical Conditions Communication Plan
91	Medical conditions policy to be provided to parents
92	Medication record
93	Administration of medication
94	Exception to authorisation requirement—anaphylaxis or asthma emergency
95	Procedure for administration of medication
96	Self-administration of medication
136	First Aid qualifications
162(c) and (d)	Health information to be kept in enrolment record
168(2)(d)	Policies and procedures are required in relation to dealing with medical conditions in children, including the matters set out in regulation 90
170	Policies and procedures are to be followed
173(2)(f)	Prescribed information to be displayed- a notice stating that a child who has been diagnosed as at risk of anaphylaxis is enrolled at the service
174	Time to notify certain circumstances to Regulatory Authority

Purpose

The *Education and Care Services National Regulations* requires approved providers to ensure services have policies and procedures in place for medical conditions. We aim to efficiently respond to and manage medical conditions, health care needs or allergies of children and staff ensuring the safety and wellbeing of all children, staff, families and visitors at our OSHC Service.

Scope

This policy applies to children, families, staff, educators, management, approved provider, nominated supervisor and visitors of the OSHC Service.

Duty of Care

Our OSHC Service has a legal responsibility to take reasonable steps to ensure the health needs of children enrolled in the service are met. This includes our responsibility to provide:

- a. a safe environment for children free of foreseeable harm and
- b. adequate supervision of children at all times.

Implementation

We will involve all educators, families and children in regular discussions about medical conditions and general health and wellbeing throughout our curriculum. Our OSHC Service is committed to adhering to privacy and confidentiality procedures when dealing with individual health care needs, allergies or relevant medical conditions.

There are a number of concerns that must be considered when a child with a diagnosed health care need, allergy, or medical condition is enrolled at the service. Key procedures and strategies must be in place prior to the child commencing at the Service to ensure their individual health, safety and wellbeing. It is imperative that all educators and volunteers at the Service follow a child's medical management plan in the event of an incident related to a child's specific health care need, allergy, or medical condition.

The approved provider/nominated supervisor/management will ensure:

- All enrolment forms are reviewed to identify any specific health care need, allergy or medical condition.
- Existing enrolment forms are reviewed, and parents contacted to confirm if the existing diagnosed health care need, allergy or relevant medical condition still applies and whether any new needs have been diagnosed.
- Parents can access a copy of the Service's Medical Conditions Policy.
- Educators, staff and volunteers have knowledge and access to this policy and relevant health management policies.
- Educators, staff and volunteers have a clear understanding of children's individual health care needs, allergy or relevant medical condition that may be ongoing or acute/short term in nature.
- New staff members are provided with induction and ongoing training to assist managers, educators and other staff effectively.
- All aspects of operation of the service must be considered to ensure inclusion of each child into the program.
- A medical condition Risk Minimisation Plan and communication plan is developed in collaboration with the Nominated Supervisor/Responsible Person and lead educators to ensure communication between families and educators is on-going and effective.
- At least one staff member is in attendance at all times with a current accredited first aid certificate, emergency asthma management and emergency anaphylaxis management certificate (as approved by ACECQA).
- Educators and staff have a clear understanding about their role and responsibilities when caring for children with a diagnosed health care need, allergy or relevant medical condition.

- Families provide required information on their child's health care need, allergy or relevant medical condition, including:
 - medication requirements
 - allergies
 - medical practitioner contact details
 - medical management plan
- A medical management plan has been developed in consultation with parents and the child's medical practitioner and provided to the service and/or:
 - An individual Asthma or Anaphylaxis Action Plan is developed in consultation with parents and the child's medical practitioner.
 - An individual Diabetes Management Plan is developed in consultation with parents and the child's medical practitioner.
- A risk minimisation plan has been developed in consultation with parents and management prior to the child commencing at the service.
- Educators and staff will be informed immediately about any changes to a child's medical management plan, risk management plan.
- To record any prescribed health information and retain copies of medical management plan, anaphylaxis management plan or asthma management plan and risk minimisation plan in the child's enrolment folder.
- Educators have access to emergency contact information for the child.
- All educators are informed of children and staff members who have specific medical conditions, food allergies, the type of condition or allergies they have, and the Service's procedures for dealing with emergencies involving allergies and anaphylaxis.
- A copy of the child's medical management plan is visibly available (in an area not generally available to families and visitors) but known to staff in the OSHC Service.
- Procedures are adhered to regarding the administration of medication at all times.
- Administration of medication record is accurately completed and signed by the educator and witnesses.
- A notice is displayed prominently in the main entrance of the Service stating that a child diagnosed at risk of anaphylaxis is being cared for or educated at the Service (regulation 173).
- Information regarding the health and wellbeing of a child or staff member is not shared with others unless consent is provided in writing, or provided the disclosure is required or authorised by law under relevant state/territory legislation.

Educators Will Ensure

- In the event that a high-risk scenario where a child suffers from a reaction, incident, situation, or event related to a medical condition the Service and staff will follow the child's emergency medical management plan as per Regulation 90(1)(c)(ii).
- The first aid responder will commence first aid measures immediately as per the child's medical management plan.
- Urgent medical attention from a registered medical practitioner is contacted if required.
- An ambulance is called by dialling 000 if the child does not respond to initial treatment.
- The nominated supervisor will contact the child's parent/guardian or emergency contact when practicable, but as soon as possible.
- The Approved Provider/Nominated Supervisor will ensure the Incident, Injury, Trauma and Illness Record is completed in its entirety.
- The Director/Nominated Supervisor will notify the regulatory authority (within 24 hours) in the event of a serious incident.

Food Handlers Will Ensure

- To keep up to date with professional training to help manage food allergies in OSHC service.
- Practices and procedures are in place, and adhered to, in relation to safe food handling, preparation and consumption of food.
- Any changes to children's medical management plans or risk minimisation plans are implemented immediately.

Families Will Ensure

- The OSHC Service enrolment form is completed in its entirety providing specific details about the child's medical condition.
- They provide management with information about their child's health needs, allergies, medical conditions, and medication requirements on the enrolment form and through verbal communication/meetings.
- They provide the OSHC Service with a medical management plan prior to enrolment of their child.
- They consult with management to develop a risk minimisation plan.
- They notify the OSHC Service if any changes are to occur to the medical management plan.
- They provide adequate supplies of the required medication and medication authorisation on an Medication Record.
- They provide an updated copy of the child's medical management plan as updated by the Medical Practitioner.
- They provide written consent for their child's medical management plan to be displayed in the OSHC service.

Medical Management Plan

Any Medical Management Plan provided by a child's parents and/or registered medical practitioner should include the following:

- specific details of the diagnosed health care need, allergy or relevant medication condition
- supporting documentation (if required)
- a photo of the child
- current medication and dosage prescribed for the child
- if relevant, state what triggers the allergy or medical condition
- first aid/emergency response that may be required
- any medication that may be required to be administered in case of an emergency
- further treatment or response if the child does not respond to the initial treatment
- when to contact an ambulance for assistance
- A copy of the medical management plan will be displayed for educators and staff to see to ensure the safety and wellbeing of the child, whilst ensuring the child's privacy by displaying only in an area generally only available to staff of the OSHC Service.
- Educators and staff are updated immediately about any changes to a child's medical management plan.

Risk Minimisation Plan

All children with a diagnosed health care need, allergy or relevant medical condition must have a risk minimisation plan in place. (Regulation 90(1)(c))

The Leadership Team will communicate with the parents/guardian as soon as the OSHC Service has been advised of the diagnosed health care need, allergy or medical condition. During this process a risk minimisation plan will be developed in consultation with the parent/guardian to ensure:

- That the risks relating to the child's specific health care need, allergy, or medical condition are assessed and minimised.
- That practices and procedures in relation to the safe handling, preparation, serving, and consumption of food are developed and implemented.
- That the parents/families are notified of any known allergens that pose a risk to a child and strategies for minimising the risk are developed and implemented.
- Practices are developed and implemented to ensure that all staff members and volunteers can identify the child, the child's medical management plan and the location of the child's medication.
- That the child does not attend the Service without medication prescribed by the child's medical practitioner in relation to the child's specific health need, allergy or medical condition.
- Risk minimisation plan(s) are reviewed at least annually and/or revised with each change in the Medical Management Plan in conjunction with parents/guardians.
- All relevant information pertaining to the child's health and medical condition is communicated to parents at the end of each day by educators.
- Appropriate hygiene practices are followed by educators.

Communication Plan

The communication plan explains how relevant staff members and volunteers are informed about the medical management and risk management plans and how the parent of the child can communicate any changes to the diagnosed health care need, allergy or medical condition.

A communication plan will be created after the consultation with the parents/guardian to ensure:

- All relevant staff members and volunteers are informed about the medical conditions policy, the medical management plan and risk minimisation plan for the child.
- Parents who require child's medication being stored in the Woodcroft College Junior School front office medication during term time will be required consent for this to occur.

At all times, families who have a child attending the OSHC Service who have a diagnosed healthcare need, allergy or medical condition will be provided with a copy of this policy and other relevant policies specific to their child's health management and communication plans.
